### The Hand That Moves The Lever Saves 162-3 Per Cent. of Your Coal Bill

The way is to make sure that her new range is controlled by a Gurney Economizer, which will severe ton of coal in every 6 burned in an ordinary range.

The Economizer is to the stove what the control lever is to the engine or automobile. Without control neither is efficient.

With the Gurney Economizer it is possible to quickly vary the heat of the oven. Various foods require different temperatures. The Economizer keeps this desired temperature absolutely uniform.

It also means that when cooking is over, you may have a cool kitchen and still have your fire going — while you can have the fercest heat in a few minutes by a slight pressure on the lever.

If you possess a Gurney-Oxford your advantages are innumerable. The Divided Flue means heat for every hole on the stove. The New Special Grate guards the lowest fire. The Broiler exposes every inch of the coals. These features are exclusively "Gurney-Ox-

# Something Every Woman Should Know

Every woman should know, what many women know from experience, that is, that there is FIT, STYLE and FINISH in a "Northway Costume" unequalled by any other maker of Ladies' Costumes in Canada.

The superior workmanship combined with the best materials has made Northway Garments famous and has made for our store a very enviable reputation throughout Central Ontario for Ladies' Garments.

## LEMIEUX KNOCKED BY LIBERAL NEWSPAPER Lemieux's usual

Hon. Rodolphe Lemieux has issued an afleged reply to the letter of Commander Roper in which he repeats some of the accusations he made against him in the House. Mr. Lemieux is well known for his immederate language, but probably has he never overstepped the mark as in the case of Commander Roper. Roper is one of the best known officers of the British navat force and a man who has for years held trusted positions under the Admiralty. To accuse him of underhandedness of trying to sneak in a report and of writing a memorandum criticizing the Laurier naval scheme for the sake of increased pay, is, the height of ridiculousn

"The Store With The Electric Man"

## Don't You Love to Dance?

Or if your dancing days are over, don't you still enjoy watching the young folks having a good, jolly dance?

With a Victrola in your home you can dance or have an evening of music-one of those informal affairs that are really the most delightful of allwhenever you wish, and your home will be the centre of attraction for all your friends.

## Why Not Get A Victrola To-day?

Go to any "His Master's Voice" dealer in any city in Canada and he will be delighted to play any muric you wisk to hear, on the Victrola. He has all the newest dance music as well as the of a favorites. Victrolas cost from \$20 to \$300 and are sold on easy terms (as low as \$1 a week) if desired. Most of the dance music is on double-sided records—30 for the two selections.

### TRADE ACTIVITY RETURNING

According to the best of authority, business or According to the best of authority, business conditions in Canada give every indication of recovering steadily from the stress of tight money and the nervous fear which struck the industrial world a month or two ago, when the real estate craze was strangeled by the banking interests. Those who disgnosed conditions properly were conditions some time ago that improvement would come this fall at the latest. The fact that the improvement is already at hand indicates foycibly the healther mean expedition of the voluntees of the health of the strength of the condition of the condition of the strength of t fact that the improvement is already at nanu mounts. It is unques healthy general condition of the business of the country. It is unques healthy general condition of the business of the country. It is unques escen combination of circumstances can cause financial depres or many months to come. The basis of the present prosperity of the country is the large amount of immigration which continues to pour to Eastern Canada and spread itself throughout every province extensive has the immigration become that the field of settlement has been enlarged, until to-day it covers the whole country. A few years

oeen enlarged, untu to-day it covers the whole country. A tew years ago, immigrants for Canada seldom had any other destination than the prairie or the west coast. Those who came into Canada then reported back to the Old Country about the opportunities which paperally awaited others in the great stretches of wonderful country in Eastern Canada, which they had passed through on their way to the west.

To-day the tide of immigration or the shores of Canada. Industry all over the country is coming to feel the benefit of the influx of labor and at the same time these people who are enabling us to keep up with the demand for manufactured products, are themselves creating an additional demand, so that the whole producing business of the country is working round an ever-widening circle. With the benefit of conbeen encouraged by the recent temporary halt in business activity, there is no reason why these prosperous conditions should not continue to it ation of forces which, taken in conjunction with its lavish heritage of natural resources, must involve great productive developments thr out a long period of years still to come. To-day, with the general im-provement in the financial markets of the world, Canada's prospect for prosperity during the rest of the present year and most of next are un-questionably bright.

## One of The Most Remarkable Cars Ever Seen in Canada

We urge you to see immediately the \$1880 Studebaker "SIX" Touring Car.
The advantages of this "SIX" are so marked, that it may truly be said for the first time to open up to men of moderate means all those luxuries of motoring which have hitherto been found only in the most expensive cars.

The most conspicuous qualities of this "SIX" are its even flow of power, its wonderful smooth-ness and flexibility, and its ability to do all work with effortless ease and a minimum of wear.

The sensation which this "SIX" has already created among the well-informed has a solid basis in the efficiency which it shows under all road

Try it now. And be warned that the Studebaker "SIX" will win you, as sure as ever you sit behind the wheel.

You who know the average good car will be charmed and convinced by a demonstration in the Studebaker "Six".

And we venture to say that your discovery of the driving qualities of this extraordinary car will be the most pleasant in all your experience.

We urge especially that those who have not yet been persuaded of the success of a moderate priced six-cylinder car should examine this "SLN" im-mediately. The Studebaker "SLN" unquestionably represents a new and striking advance in automo-bile luxury.

## Gurney - Oxford Baking Worthy of the Art of a Chef

The average woman abhors having to spend all her time in the kitchen striving to accomplish some new dish in baking. But when she can have a range like the Gurney-Oxford, cooking becomes a pleasure and a fascination because of its consistent assured success.

The heat of the whole range is controlled by one lever, called the Economizer, with remarkable ease and effect.

The oven is entirely surrounded by a perfectly even heat of any degree required for any kind of baking. Pans of biscuits, light rolls, or cakes, all cook evenly with a delicate, golden brown crustly without having to be constantly changed around next the heat; as in other ranges.

This perfect Gurney-Oxford oven encourages a woman to attempt, delicious and unusual recipes of her own invention. Her reputation for being a "splendid cook" is at once established. The Gurney-Oxford Economi-

zer regulates the exact degree of heat which is directed through the oven by a Divided Flue - Strip with perfect evenness in every corner. The fire is held low on a Special Reversible Grate which burns

every coal to a white ash. The castings are smooth, and the nickle trimming can be lifted off to be polished. The Warming Closet is big enough and strong enough to hold a whole dinner

## Grape-Nuts

This food is a perfectly balanced ration made of whole wheat and malted barley, thoroughly cooked and ready to eat from the package. Digests easily—generally in about one hour.

Grape-Nuts contains all the rich nutrition of the grain, including the vital mineral salts (grown in the grain) which Nature designed for rebuild-ing muscle, nerve and brain cells. White bread is lacking in these salts. A regular morning dish of Grape-Nuts and cream has brought rosy-cheeked, clear-brained health to thousands.

Daudet received \$30,000 for "Sashor" Victor Hugo. \$100,000 for "Les
Miserables." but Dwight Is. Moody revolved \$1,000,000 for his share of the
profits on the famous byms book. The Delphin Visile.

The Delphin visile was so named on account of the beauty of the wood, the back of the frastrament resembling the color of a dolphin. It was made by Stradfrarius in 1714, and it is considered the most beautiful violin in the world. It is owned by an Englishman and valued et 25,000.

natives and a few white men also have disappeared.

News to this effect was brought it San Francisco yesterday by Captain J. H. Trask, of the steamer Sonoma which arrived from Sydney, via Page Pago and Honolulu.

Pago and Honolulu. Captain Trask said; "One of the re-gular trading steamers between Syd-ney and the Tonga group, reported the sinking of the islands. The ves-sel steamed to where Falson Island should have been, but it was nowhere

in sight."
"Just prior to this the instruments at the Sydney naval station showed that several violent [earthquak shocks had taken place about 2,00 miles northeast of Sydney." COUNTRY CORRESPONDENCE

## CONTINUING FASHION'S DISTINGUISHED DISPLAY OF AUTUMN STYLES

#### Stunning New Models in Smart, Ready-to-Wear Hats

One of the first things you notice about these new hats is the beautiful color combinations which have been introduced. Delightful effects have been pro-duced by the mingling of dark and gay tones. They are of course imported models—some course imported models — some coming from Paris while others eminate from London work-rooms. See them our Millingry Parlors, 2nd floor.

NOTE: Aithough the formal opening is over we still invite the ladies to visit our Millinery Parlors as often as possible. There is always something new of interest on display and whether you intend to buy or not we invite you to come in and look ground.

#### The New Blanket Cloths in Exquisite Colorings

They are here—the lovely new Blanket Cloths, in exquisitely soft and even qualities. For the woman who cares for something finetly different this new Blanket Cloth command instant attention.

They are 54 inches wide and are obtainable in plain shades only. Prominent among the colorings are the new autum tints of fawns, browns, greys, navy, red and white. The quality is exceptionally tirm, yet it has a nice soft appearance. See them. They are special value at \$1.30 yard.

#### Navy Blue Serges at Popular Prices

In the Front Rank of Javorite materials for Autuum wear one will find—as in many preceding seasons—the Navy Blue Serges occupying a prominent place, and these lines mentioned here are of British manufacture, and each possess on a quality that warrants long wear and good appearance.

The Economizer will do it.

While the cost of living has undoubtedly been growing greater, at the same time it is true there are some inventions that will offset this increased cost of living, and the careful housewife takes advantage of these inventions.

On every Gurney-Oxford range there is an Economizer which controls not only the drafts but also the entire combustion or burning of fuel to create heat.

This Economizer will save 1 ton of coal in every 6 that you would use with the ordinary range. The Economizer is a simple device, absolute in its control. By merely moving the lever you can obtain any degree of even heat in the oven. This insures the satisfaction of always having light, delicately crusted bread and biscuits.

The kitchen fire ceases to be a worry if the

A "sweet and sour" shower is useful to give a bride-to-be. Each guest brings two jars filled with something good to eat. One, for instance, may contain sat. One, for leatance, may contain-strawberry jam and the other mixed pickies. Each jar bears the name of the donor and a seathment to suit the occasion, which may be read-aloud The jars will not be labeled other-wise, so the newlywood always have a surprise as long as there is one of the "awest or near" jars to open.

### The Cosiness of a Maish Comforter

Half the restfulness of sleep is due to the comfortableness of the bed, and a hed can certainly not be comfortable on a cool night unless it is warm, and if the coverings necessary to produce this warmth are too heavy there is again a measure of discomfort. The solution of the problem lies in a MAISH COMFORTER, because it imparts warmth without weight. These Comforters are made of the purest and downiest cotton in Wisconsin, and are made up of layers, each one being the size of the entire confort, until the required thickness is attained, the layers cling together and form a filling so perfect, so light, yet so substantial, that the covering can be changed without injuring the filling in the slightest way. ### The New KABO Corset (THE LIVE MODEL)

We have just placed in stock a full range of the Celebrated Kabo. Corsets, in all the new fall models. These Corsets are now recognized as one of the most perfect American Corset productions, in fact they are now best known as the "Live Model" and we show a style designed to fit every figure, giving special attention to stout figures.

Prices \$1.50 to \$4.00

# Ladies' Tailored Costumes "NORTHWAY MAKE"

Just now our showing of these perfect fitting costumes is at its best, and we do not hesitate to say, that there is not another maker of Ladies Costumes in Canada, that enjoys the reputation of the "Northway Garments". If you want a costume that will FIT WELL, WEAR WELL and LOOK WELL, select a NORTHWAY COS-TUME. This season's new styles are particularly attractive, priced to sell at \$16.50, \$18.50, \$22.50, \$25.00, \$27.50 and \$32.50,

### A MAGNET

Men who know-men who appreciate good things to wear are constantly being attracted to this store!

### Come, See What Draws

We'd be disappointed if we couldn't truthfully say this Fall that our Suits and Overcoats are "better than ever," it's a sign that we're keeping in front each season by getting new ideas, and improving on old ones.

This Fall we say, "better than ever" with unusual emphasis.

We shall be pleased to have you see our Outsitting, whether you come to buy or mere-ly to look. You're welcome to try on as many garments as you please.

# Ladies', Misses' and Children's New Fall Garments

We doubt if ever there was a season that produced such a variety of beautiful Coats as the present one. This season's Coats are shown in an endless variety of heavy Tweeds and Curl Cloths, while the new Persianica, Chinola, Plushes and Velvets add greatly to the beauty of the New Fall Garments.

## Ladies' Beautifully Tailored Costumes

If we may judge by the sale of Ladies' Costumes during the past few weeks, we must conclude that the present season will be one of exceptional Costume selling. The new Long Suit Coat, cut-away style, makes it imperative that every Well Dressed Woman will want a New Fall Costume, We are now showing these New Costumes in every fashionable Cloth, in Northway's Tailored Styles, at every price from \$16.00 to \$35.00.

27-INCH DRESS CORD VELVETS, ONLY 50c. yd.

This is one of the season's most fashionable Drew Materials, for Fashion has decreed that Velects be more sorn this section than ever below. This special Velect is a very rich Cord, in all the new Fall colors, 27 inches wide; an unousually wide Dress Velect, and only 50e, per yard.

These are the prices that are making our Dress Silk Department one of the busiest in our store. These beautiful New Dress Silks are all abson in 36 to 40 liche sittles, in plain colors, fancy breaches, affects, Cords, Felliers and Jancy attracts, in all, a wonderful collection of Dress Silks from Sec. to \$1.00 per year. # The Gurney-Oxford Attracts Madam To The Kitchen

THE GURNEY-OXFORD has a large following of fashionable cooks who dip into the culinary art simply for the pleasure they derive from trying dainty recipes previously not attempted. They are all most enthusiastic supporters of the Gurney-Oxford because it contains many exclusive devices that make a perfect cooking equipment.

Its oven is evenly heated in every corner to insure deliciously dainty cakes, golden brown biscuits, and light flaky pastry. A special Divided Flue carries the heat to every hole on the range. The nickle trimming is removable thus proving a great convenience for keeping the range bright and cleap.

But most important is the Economizer. It is a small lever that moves around a series of six notches giving the exact degree of heat required for any particular dish. The heat of the range can be shut off and the kitchen kept cool between meals by turning the lever to a certain number,

The fire is held at a low ebb on a special Reversible Grate until a baking oven is required. Then the necessary heat can be obtained quickly by simply turning the Economizer lever to another notch.

Such control as this enables many smart women to invent some very tempting dishes which they set triumphantly before their friends. It will pay you to investigate the Gurney-Oxford.

Some Points

Worth Noting

There are on display in our Carpet Department over \$4000.00 worth of genuine Oriental Rugs. These Rugs are woven all the way through by hand, which ensures not only the individuality of design bur great durability. The colorings in which they are shown are remarkable for their delicate softness of tone.

shown are remarkable for their delicate softness of tone, the result of a secret process of dyeing unknown to Europ-eans. These colorings are eans. These colorings are practically everlasting and never fade under the severest conditions. They are in almost every size from the very small to the very large.

Now is the time to make your furniture more beautiful by the making of cushions from the large assurtment of Cretomers and Art Chintz to be had on our grid floor. They come in floral and oriental, in roc, green, blue and belie colorings, \$8 to 31 inches wide, prires range from 25e, 10 55e, yard.

#### TWO GREAT YEARS UNDER

#### THE BORDEN GOVERNMENT

The work, which the Borden Government has accompanied amount of into office less than twenty-four months ago would do credit to an administration in power for a full Parliamentary term. First, in the matter of promoting the great basic industry of the country, Mr. Barrell, as Minister of Agriculture, has developed and put into operations of the Provincial Government in the matter of the properties of the Provincial Government and the properties of the Provincial Government and the properties of the Provincial Government and the properties of the Provincial Government of the Provincial Gove tion a policy that, through the co-operation of the Provincial Govern-ments, which has been freely given, promises to produce a notable im-provement in the quality and quantity of farm production, in the East s well as in the West.

as well as in the West.

Under Mr. Cochrane, the line of railway to connect the prairies
with Hudson Bay, which Parliament stanctioned years, ago, has been use
derathen with a vigore that means accompliament. Under his direction
also, the work of completing the Naiinnal Transcontinental Railways has
been taken used of he hands of a political commission and put under the
charge of a capable and experienced man who is carrying it through as
a bustience enterprises. So with the other works.

The Welland Canal is to be supplemented by the construction of new waterway which will enable the large steam carriers that make transportation so cheap on the upper lakes to pass from Eric into On turio, and reduce by one-hild it least the distance which has to be cov-ered by the more costly barge service between the head of the lakes and th ship's idea of Montreal.

. Other works in the same line begun in earnest since the Borde Government came into power include the provision of efficient and suffi reverginent came into power include the provision of encernt and some circuit terminal equipment for the Intercolonial Railway at St. John and Halifax, and works in aid of navigation at Quebec, Montreal and other points where expenditure on business lines for business services was stified where expenditure on business lines for business service justified where expenditure on husiness lines for business services was be mentioned the enlargement of the elevator capacity where it is found to be needed and the provision of new storage facilities where they will be of ggrastys service to the grain trade of the western provinces. Under Mr. Pelletier, pareels post has been established, which will

give to all places the advantages now only obtained through the expression and places the advantages now only obtained through the expression and the same of communication only. The Postmaster-Great has succeeded also in getting cheaper cable rates and in extending

the rural mail service.

SWINE.

-for Digestion

Many persons suffer more or less from head-ache, dizziness, biliousness, and symptoms com-tion to indigestion. There are various causes, such as over-starchy or greasy foods, improper mastication, or bad cooking.

# Grape-Nuts Solves the digestion problem

This food, made from prime whole wheat and barley, is perfectly baked until the starch cells are either converted, into easily digested grape sugar, or thoroughly broken down for quick digestion—generally in about one hour.

There is no animal fat in Grape-Nuts.

The crisp granules of Grape-Nuts come to your table ready-to-eat direct from package, invite thorough mastication and have a peculiarly sweet, nut-like flavor.

Grape Nuts, containing all the rich elements of wheat and barley, including the vital mineral salts, is a perfectly balanced food for building muscle, bone, brain and nerve.

cf. pone, or an an analysis of the long-cs. Grape-Nuts is probably the long-est baked, the best balanced, and the most easily digested of all cereal foods. Wonderfully appetizing with , cream and sugar.

never ceased crying out against the protective policy of the eastern States, as burdensome to them as agriculturalists. Time rolled on, and industrial establishments sprang up among them, and as a consequence the consumers increased, dem. sulting in the contentment of the settlers, except those who reveled in

the throes of free trade.

History is repeating itself in the Canadian Northwest. Look at facts:

the facts: In the five years from 190g to the end of 1910 Manitoba gained §5 munifacturing industries; Saskatchewan, 33, and Alberta 173. Their aromal production totaled over \$5,000,000. The value plared on industries by the cities is aboven by the recent refused of the Associated Boards of Tracts to a pass a resolution condensing housing. The money crisis through which the West has been possing has allowed very strilling cedence of the value of a large industrial population. The production of the production of the Manufacturer's Associa-tion, is his 2 month of the Manufacturer's Association of the Manuf

These facts justified the President of the Manufacturers' Associa-tion, in his imagural address, at the annual meeting of the Association held in Halfdax a few days ago, to draw attention to the growth of manufacturing industries in our western Praviners' sea one of the strong influences tending to unite East and West on common grounds of interest." This, in the words of a contemporary, is a-motter in which the self-interest of the West develops every year. In the midst of a large and very prosperus population, which is growing faster than that of any other part of the country, the springing up of leval industries. is a natural outer part of inc country, the springing up of local industries is a natural outerome. Hitherethe cities and towns of the West lawe been mainly cummunities acting as agents and distributors to the agri-cultural population. This will, of course, continue their chief function, but the close relationship between farmers and urban workers adds to the opportunity for manufacturing success.

## Control Your Coal Expenditure

In the Gurney-Oxford range you will find more exclusive features, more essential improve-ments that appeal to the thrifty housewife than have ever before been found in any one kitchen

But most important of all is the Economizer. This (clever device for regulating the drafts saves 1 ton of coal in every 6 that you would burn in the ordinary range. It takes the smell of cooking out of the kitchen and sends it up the chimney. "You know what that means.

canney. You know what that means.

The Economier enables you to absolutely control the amount of coal you wish to consume and still have a perfect heat for cooking. It will enable you to keep your fire going while you go out shopping or wish your neighbor, and all that is necessary for you to do on your return is to press the small lever and you are assured of a hot fire in a very few moments.

A Gurney-Oxford stove is sanitary-no dirt can accumulate on its beautifully smooth sur-

ance.
Of paramount interest also are the other remarkable and exclusive attachments—the Special Grate, the Divided Flue and the Broller. Every woman who knows owns a Gurney-Oxford.

## Ladies', Misses' and Children's New Fall Garments

We doubt if ever there was a season that produced such a variety of beautiful Coats as the present one, This season's Coats are shown in an endless variety of heavy Tweeds and Curl Cloths, while the new Persianica, Chinola, Plushes and Velvets add greatly to the beauty of the New Fall Garments.

## Ladies' Beautifully Tailored Costumes

If we may judge by the sale of Ladies' Costumes during the past few weeks, we must conclude that the present season will be one of exceptional Costume selling. The new Long Suit Coat, cut-away style, makes it imperative that every Well Dressed Woman will want a New Fall Costume, We are now showing these New Costumes in every fashionable Cloth, in Northway's Tailored Styles, at every price from \$16.00 to \$35.00.

27-INCH DRESS CORD VELVETS, ONLY 50c. yd.

This is one of the season's most fashionable Dress Materials, for Pashion less decreed that Velvels be more some this season than ever before. This special Velvel is a very rick Cord, in all the new Fall colors. 25 inches wide; an unusually wide Dress Velvet; and only 56e, per yard.

"His wife is such a splendid manager!

TOW often have you heard this said of some one of your lady friends?—one who seems to run her household more easily and smoothly than the average. She has the happy knack of buying well-of making a dollar do a full dollar's work. Yet-after all-it doesn't need a genius to become a skilful home imanager. The clever housewife is the woman who never buys haphazard. She selects her food supplies. She doesn't merely ask for "some" ham or "some" bacon, for instance. She goes to the trouble of finding out one definite brand of goods of known reputation-and she sticks to that brand. The Swift Canadian Co., Limited, has solved the food-buying problem for practically millions of housewives

# Swift's FOOD PRODUCTS

The following are some of the choice Swift specialties Always took for these brands, and insist on having them:

"Swift's Premium" Ham. "Swift's Premium" Bacon. "Swift's Cotosuet." "Brookfield" Sausage. "Brookfield" Eggs.

The housewife who will make a point of asking for "Swift's" is well rewarded. She is assured of uniform tip-top quality always. The name "Swift" is a

guarantee of choice, perfectly prepared, carefully selected food products which never disappoint.

## These Young Men's Suits Are Really Young Men's Suits

They are special models, originated expressly for young men.

The spirit of youth is incorporated into every line of these new models. The air of youthfulness they wear-and the air of youthfulness they reflect on the wearershow how carefully the designer has caught the young man's ideals.

The patterns, too, are distinctly youthful -novelty weaves and colors that are most suitable for youthful faces and figures.

Every price-irom \$15. to \$35.-represents honest value.

## Learn the New Dances at Home with the Victrola

Nothing has done more to increase the popularity of the new dances than the Victrola. Without it they would be merely local with the place where they originated or confined to the large centres. With it they have become National and International and are known wherever people dance.

If you haven't a Victrola, get one now, and see how easy it is to learn the new dances when they are played as the Victrola plays them-with full orchestra or band and in perfect time.

Call at any "His Master's Voice" dealer in any City in Canada and let him play the Victorla for you. Victorlas cost from \$20 to \$300 and are sold on easy payments (as low as \$1 per week) if desired. Victor, records are 90c for 10 in. double sided. Ask for our Catalogue

This Exhibit and Sale of Genuine Oriental Rugs will continue until Saturday of This Week. An expert representing the Oriental Carpet Co., of Smyrna, has charge of the exhibit, which contains more than \$4000.00 worth of Genuine, Hand-made Rugs imported direct from the weavers in India, Persia, Turkey, and other parts of Asia Minor. The fact that these rugs are not saddled by the middlemen's commission or yoked by the burden of heavy duties, furnishes the best argument possible for the moderate cost. ### This oven text means bake-day "luck"

If your baking results vary, you may find the reason in the flour. For there is only one way that a miller can assure you constant success. An oven test must be made.

So we take ten pounds of wheat from each shipment delivered at our mills. We grind this sample into flour. Then the flour PURITY is baked into bread.

If this bread proves to be the "lucky" kind—high in quality, large in quantity—we use the shipment. Otherwise we sell it.

### Why it is the Best Range Procurable

It stands to reason that the foundry of national reputation for its equipment of the most notable hotel, restaurant, and institutional kitchens throughout the Dominion, also makes the best range on the market for the home kitchen.

This Gurney-Oxford range is This curney-Oxford range is the result of over seventy years' experience and experimental study of improvements to benefit the woman who toils in the kitchen.

Even Bakings

By means of a Divided Flue Strip, the heat is divided evenly over the top and down the back and sides of the oven. A pan of biscuits in the front and back of the oven will brown with perfect evenness without having to change their places. having to change their places many times during the baking. The two back lids of the range also receive an equal cooking heat that will boil two kettles

The entire range is controlled practically by one handle, called the Economizer. It turns around a series of six notches to determine the exact degree of heat required. Such control saves time, fuel and labor.

### OCEAN AND FRESH WATER PORTS

The mammoth strides made by the Booten Government in 'exedjo-ing the national parts of the Dominion' is [generally recognized by all who have the country's interest at heart, aside from party subsernee. One has but to consider the tender for the Tomotho hatger, a work in-volving an expenditure of six million folders, table a glames across the confinent to Victoria harbor, the improvement of which well shortly be placed in competen hands, and then gernus the bown Bde appropriations of a million here, five hounded theatand there, two hondred and fifty

thousand yonder, to conclude that a strenuous effort is under way make good the promises of 1911.

MAKE good the promises of 1911.

At Halifax, St. John, Montreal, Vancouver, and Victoria the government is giving evidence of its intention to equip thoroughly and adequately the great trade portals of Canada and thus to place the ountry in a position to compete effectively and successfully for its le-itimate share of the world's trade. On the Great Lakes at Toronto

glimate stare of the words trade. On the Overal Lakes at formou, Hamilton, Port Arthur, Fort William and other ports large sums are also being spent for necessary harbor improvements. Fremier Bonden in his Halfats speech recently dealt with the policy of the Government to develop the great national ports. "The increasing production and requirements of the Dominion," said Mr. Borden, "and the opportunities afforded not only upon the Atlantic and the Pacific but on our great inland seas for a great and expanding flow of commerce are sufficient evidence that moneys exexplanding into di commarce are suincire reference that moneys ex-pended for such purposes are wisely appropriated. In these Maritime Provinces we have hitherto lacked something of the progress and dev-velopment which have been so marked in other portions of the Dunis-ion. There is strong ground for the conclusion that these Provinces are now about to enter and, and indeed have already entered upon a period of development which is justly their dus. For many years this port has suffered from lack of adequate terminal facilities. The splene terminals which will be advanced with every possible expedition can fail to be attended with marked advantage not only to this city and pr vince but to the whole Dominion. They will give you the opportun of availing yourselves of the advantages afforded by this magnifice harbor and by the great national highway which under the en-management of Mr. Cochrane will afford unrivalled railway facili Quebec and the Maritime Provinces."
